

Geographic Information System Field Technician

About the job

Jonah Water Special Utility District (SUD) is accepting applications for GIS Field Technicians with a start date of January 5th, 2026.

Jonah Water SUD provides high-quality water services to over 30,000 district customers in central Williamson County, Texas. GIS Field Technicians will support the district's needs in water, wastewater, sewer and stormwater efforts. Under scheduled office hours, GIS Field Technicians will collect, manage, and analyze utility assets including but not limited to waterlines, valves, fire hydrants, and meters. GIS Field Technicians aid continued growth of GIS to promote informed decision making, customer service excellence and collaboration throughout the Jonah Water SUD and surrounding regions.

Essential Responsibilities

- Capture new and existing district assets in the field using ArcGIS Field Maps and GNSS equipment
- Provide support to on-staff GIS Specialist

Qualifications

- High attention to detail and accuracy of information
- This position does not require prior experience, and on the job training will be provided as necessary

Working Conditions

- Full-time hourly paid position
- Standard 40-hour workweek Monday through Friday but may be required to work additional hours on Saturdays on a sporadic, as-needed basis.
- Office environment combined with outside field work involving sitting, standing and walking on uneven terrain

Compensation Package

Jonah Water SUD offers a favorable compensation package including competitive wages and longevity pay. Jonah also offers time away from work benefits that include 11 paid holidays annually, earned vacation time-off and sick leave. Once a trial period is complete, employees are eligible for medical, dental and life insurance coverage. Retirement benefits entail membership with the Texas County and District Retirement System with participation from both employee and Jonah contributions to the employee's retirement account.
